

§ 131A-7. Procedural requirements.

In addition to health care facilities initiated by the Commission, any public or nonprofit agency may submit to the Commission, and the Commission may consider, a proposal for financing health care facilities using such forms and following such instructions as may be prescribed by the Commission. Such proposal shall set forth the type and location of the health care facilities and may include other information and data available to the public or nonprofit agency respecting the health care facilities and the extent to which such health care facilities conform to the criteria and requirements set forth in this Article. The Commission may request the public or nonprofit agency to provide additional information and data respecting the health care facilities. The Commission is authorized to make or cause to be made such investigations, surveys, studies, reports and reviews as in its judgment are necessary and desirable to determine the feasibility and desirability of the health care facilities, the extent to which the health care facilities will contribute to the health and welfare of the area in which they will be located, the powers, experience, background, financial condition, record of service and capability of the management of the public or nonprofit agency, the extent to which the health care facilities otherwise conform to the criteria and requirements of this Article, and such other factors as may be deemed relevant or convenient in carrying out the purposes of this Article.
