

**§ 143-151.72. Legislative findings.**

North Carolina has a vested economic interest in preserving, maintaining, and sustaining land uses that are compatible with military activities at major installations. Development located proximate to military installations has been identified as a critical issue impacting the long-term viability of the military in this State. Additional concerns associated with development include loss of access to air space and coastal and marine areas and radio frequency encroachment. The construction of tall buildings or structures in areas surrounding major military installations is of utmost concern to the State as those buildings and structures may interfere with or impede the military's ability to carry out activities that are vital to its function and future presence in North Carolina. (2013-206, s. 1.)
