- (1) The North Carolina Medical Care Commission shall adopt statewide plans for the construction and maintenance of hospitals, medical centers, and facilities regulated under Chapters 131D and 131E of the General Statutes, or such other plans as may be found desirable and necessary to meet the requirements and receive the benefits of any applicable federal legislation.

- (4) The Commission has the power and duty to approve projects in the amounts of grants-in-aid from funds supplied by the federal and State governments for the planning and construction of hospitals and other related medical facilities in accordance with Articles 4 and 5 of Chapter 131E of the General Statutes.
- (5) Repealed by Session Laws 1981 (Regular Session, 1982), c. 1388, s. 3.
- (6) The Commission shall adopt rules establishing standards for the licensure, inspection, and operation of, and the provision of care and services by, the different types of hospitals to be licensed under Articles 2 and 5 of Chapter 131E of the General Statutes.
- (7) The Commission may adopt such rules, not inconsistent with the laws of this State, as may be required by the federal government to secure federal grants-in-aid for medical facility services and licensure. This section shall be liberally construed in order that the State and its citizens may benefit from such grants-in-aid.
- (8) The Commission shall adopt such rules, consistent with the provisions of this Chapter. All rules adopted by the Commission since the enactment of Chapter 131E of the General Statutes that are not inconsistent with the provisions of this Chapter shall remain in full force and effect until repealed or superseded by action of the Commission. All rules adopted by the Commission shall be enforced by the Department of Health and Human Services.

The Commission's standards shall be no less stringent than those established by the United States Department of Health and Human Services for Medicare/Medicaid coverage of screening mammography. These rules shall also specify procedures for waiver of these accreditation standards on an individual basis for any facility providing screening mammography to a significant number of patients, but only if there is no accredited facility located nearby.
