

§ 63A-15. County agreements.

Any county in which all or part of a cargo airport complex site is located may enter into an agreement with the Authority providing for payments to be made by the county to the Authority. A county may not enter into an agreement to make payments to the Authority until after the Authority designates the cargo airport complex site. The county's obligations under the agreement shall not constitute a pledge of its faith and credit. (1991, c. 749, s. 1.)
