(b1) The Department may review the prescription information data in the controlled substances reporting system and upon review may:

The criteria for reporting established by rule shall not establish the standard of care for prescribing or dispensing, and it shall not be a basis for disciplinary action by an agency that the Department reported a practitioner to an agency based on the criteria.

(c) The Department shall release data in the controlled substances reporting system to the following persons only:

- (1) Persons authorized to prescribe or dispense controlled substances for the purpose of providing medical or pharmaceutical care for their patients. Within one week of receiving the initial or updated lists described in this paragraph, the Department shall establish all of the delegate accounts necessary to enable each delegate listed by the administrator of the hospital emergency

(e) In the event that the Department finds patterns of prescribing medications that are unusual, the Department shall inform the Attorney General's Office of its findings. The Office of the Attorney General shall review the Department's findings to determine if the findings should be reported to the SBI and the appropriate sheriff for investigation of possible violations of State or federal law relating to controlled substances.

(f) The Department shall, on a quarterly basis, purge from the controlled substances reporting system database all information more than six years old. The Department shall maintain in a separate database all information purged from the controlled substances reporting system database pursuant to this subsection and may release data from that separate database only as provided in subsection (d) of this section.
