The aggregate principal amount payable by the State under financing contracts entered pursuant to this Article shall not exceed fifty million dollars (\$50,000,000) at any one time.

"§ 142-64. Procedure for incurrence or issuance of financing contract.

(a) When a State governmental unit has solicited a guaranteed energy conservation measure, the State governmental unit shall request that the State Treasurer approve the State governmental unit's entering into a financing contract to finance the cost of the energy conservation measure. In connection with the request, the State governmental unit shall provide to the State Treasurer any information the State Treasurer requests in order to evaluate the request. (b) A financing contract may be entered into pursuant to this Article only after all of the following conditions are met:

- (1) The Office of State Budget and Management has certified that resources are expected to be available to the State to pay the payments to fall due under the financing contract as they become due and payable.
- (2) The Council of State has approved the execution and delivery of the financing contract by resolution that sets forth all of the following:
 - a. The not-to-exceed term or final maturity of the financing contract, which shall be no later than 12 years from the date the financing contract is entered.

The resolution of the Council of State shall include any other matters the Council of State considers appropriate.

(c) In determining whether to approve a financing contract under subdivision (b)(3) of this section, the State Treasurer may consider the factors the State Treasurer considers relevant in order to find and determine all of the following:

- (1) The principal amount to be advanced to the State under the financing contract is adequate and not excessive for the purpose of paying the cost of the energy conservation measure.
- (2) The increase, if any, in State revenues necessary to pay the sums to become due under the financing contract are not excessive.
- (3) The financing contract can be entered into on terms desirable to the State.
- (4) In the case of delivery of certificates of participation, the sale of certificates of participation will not have an adverse effect upon any scheduled or proposed sale of obligations of the State or any State agency.

(d) The Office of State Budget and Management is authorized to certify that funds are expected to be available to the State to make the payments due under a financing contract entered into under the provisions of this section as the payments become due and payable. In so certifying, the Office of State Budget and Management may take into account expected decreases in appropriations to the State governmental unit that will offset payments expected to be made under the financing contract.

"§ 142-65. Security; other requirements.

(a) In order to secure the performance by the State of its obligations under a financing contract or any other related documentation, the State may grant a lien on, or

security interest in, all or any part of the energy conservation property or the land upon which the energy conservation property is or will be located.

(b) No deficiency judgment may be rendered against the State or any State governmental unit in any action for breach of any obligation contained in a financing contract or any other related documentation, and the taxing power of the State is not and may not be pledged directly or indirectly to secure any moneys due under a financing contract or any other related documentation. In the event that the General Assembly does not appropriate funds sufficient to make payments required under a financing contract or any other related documentation, the net proceeds received from the sale, lease, or other disposition of the property subject to the lien or security interest created pursuant to subsection (a) of this section shall be applied to satisfy these payment obligations in accordance with the deed of trust, security agreement, or other documentation creating the lien or security interest. These net proceeds are hereby appropriated for the purpose of making these payments. Any net proceeds in excess of the amount required to satisfy the obligations of the State under the financing contract or any other related documentation shall be paid to the State Treasurer for deposit to the General Fund of the State.

(c) Neither a financing contract nor any other related documentation shall contain a nonsubstitution clause that restricts the right of the State to (i) continue to provide a service or conduct an activity or (ii) replace or provide a substitute for any State property that is the subject of an energy conservation measure.

(d) A financing contract may include provisions requesting the Governor to submit in the Governor's budget proposal, or any amendments or supplements to it, appropriations necessary to make the payments required under the financing contract.

(e) A financing contract may contain any provisions for protecting and enforcing the rights and remedies of the person advancing moneys or providing funds under the financing contract that are reasonable and not in violation of law, including covenants setting forth the duties of the State in respect of the purposes to which the funds advanced under a financing contract may be applied, and the duties of the State with respect to the property subject to the lien or security interest created pursuant to subsection (a) of this section, including, without limitation, provisions relating to insuring and maintaining any property and the custody, safeguarding, investment, and application of moneys.

(f) The interest component of the installment payments to be made under a financing contract may be calculated based upon a fixed or variable interest rate or rates as determined by the State Treasurer.

(g) If the State Treasurer determines that it is in the best interest of the State, the State may enter into, or arrange for the delivery of, a credit facility to secure payment of the payments due under a financing contract or to secure payment of the purchase price of any certificates of participation delivered as provided in this Article.

"§ 142-66. Payment provisions.

The payment of amounts payable by the State under a financing contract and any other related documentation during any fiscal biennium or fiscal year shall be limited to funds appropriated for that purpose by the General Assembly in its discretion. No provision of this Article and no financing contract or any other related documentation shall be construed or interpreted as creating a pledge of the faith and credit of the State or any agency, department, or commission of the State within the meaning of any constitutional debt limitation.

"§ 142-67. Certificates of participation.

(a) If the State Treasurer determines that the State would realize debt service savings under one or more financing contracts if certificates of participation are issued with respect to the rights to receive payments under the financing contract, then the State Treasurer is authorized to take actions, with the consent of the Council of State, that will effectuate the delivery of certificates of participation for that purpose.

(b) Terms; Interest. – Certificates of participation may be sold by the State Treasurer in the manner, either at public or private sale, and for any price or prices that the State Treasurer determines to be in the best interest of the State and to effect the purposes of this Article, except that the terms of the sale must also be approved by the special corporation. Interest payable with respect to certificates of participation shall accrue at the rate or rates determined by the State Treasurer with the approval of the special corporation.

(c) Trust Agreement. – Certificates of participation may be delivered pursuant to a trust agreement or similar instrument with a corporate trustee approved by the State Treasurer.

"§ 142-68. Tax exemption.

Any financing contract entered pursuant to this Article, and any certificates of participation relating to it, shall at all times be free from taxation by the State or any political subdivision or any of their agencies, excepting estate, inheritance, and gift taxes; income taxes on the gain from the transfer of the financing contract or certificates of participation; and franchise taxes. The interest component of the installment payments made by the State under the financing contract, including the interest component of any certificates of participation, is not subject to taxation as income.

"§ 142-69. Other agreements.

The State Treasurer may authorize, execute, obtain, or otherwise provide for bond insurance, investment contracts, credit and liquidity facilities, credit enhancement facilities, interest rate swap agreements and other derivative products, and any other related instruments and matters the State Treasurer determines are desirable in connection with entering into financing contracts and issuing certificates of participation pursuant to this Article. The State Treasurer is authorized to employ and designate any financial consultants, underwriters, fiduciaries, and bond attorneys to be associated with any financing contracts or certificates of participation under this Article as the State Treasurer considers appropriate.

"§ 142-70. Investment eligibility.

Financing contracts entered into pursuant to this Article, and any certificates of participation relating to them, are securities or obligations in which all of the following may invest, including capital in their control or belonging to them: public officers, agencies, and public bodies of the State and its political subdivisions; insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, and other financial institutions engaged in business in the State; and executors, administrators, trustees, and other fiduciaries. Financing contracts entered pursuant to this Article, and any certificates of participation relating to them, are securities or obligations that may properly and legally be deposited with and received by any officer or agency of the State or any political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may later be authorized by law."
