24 Department finds that the only actions or controls to be implemented or maintained as part of  
25 the remedial action plan for the site include either or both of the following:

26 (1) Annual reporting of land-use controls.

27 (2) The maintenance of durable or low-maintenance covers for contaminated  
28 soil.

3   **LAND-USE RESTRICTIONS FOR PROPERTY CONTAMINATED BY A NON-UST**  
4   **PETROLEUM DISCHARGE OR RELEASE**

5           SECTION 3.(a) G.S. 143B-279.9(b) reads as rewritten:

6           "(b) The definitions set out in G.S. 143-215.94A apply to this subsection. A remedial  
7   action plan for the cleanup of environmental damage resulting from a discharge or release of  
8   petroleum from an underground storage tank pursuant to Part 2A of Article 21A of Chapter 143  
9   of the General Statutes-Statutes, other petroleum sources, or from an aboveground storage tank  
10 pursuant to Part 7 of Article 21A of Chapter 143 of the General Statutes must include an  
11 agreement by the owner, operator, or other party responsible for the discharge or release of  
12 petroleum to record a notice of any applicable land-use restrictions that meet the requirements  
13 of this subsection as provided in G.S. 143B-279.11. All of the provisions of this section shall  
14 apply except as specifically modified by this subsection and G.S. 143B-279.11. Any restriction  
15 on the current or future use of real property pursuant to this subsection shall be enforceable  
16 only with respect to: (i) real property on which the source of contamination is located and (ii)  
17 any real property on which contamination is located at the time the remedial action plan is  
18 approved and that was owned or controlled by any owner or operator of the underground  
19 storage tank or other responsible party at the time the discharge or release of petroleum is  
20 discovered or reported or at any time thereafter. No restriction on the current or future use of  
21 real property shall apply to any portion of any parcel or tract of land on which contamination is  
22 not located. This subsection shall not be construed to require any person to record any notice of  
23 restriction on the current or future use of real property other than the real property described in  
24 this subsection. For purposes of this subsection and G.S. 143B-279.11, the Secretary may  
25 restrict current or future use of real property only as set out in any one or more of the following  
26 subdivisions:

- 27           (1) Where soil contamination will remain in excess of unrestricted use  
28 standards, the property may be used for a primary or secondary residence,  
29 school, daycare center, nursing home, playground, park, recreation area, or  
30 other similar use only with the approval of the Department.
- 31           (2) Where soil contamination will remain in excess of unrestricted use standards  
32 and the property is used for a primary or secondary residence that was  
33 constructed before the release of petroleum that resulted in the  
34 contamination is discovered or reported, the Secretary may approve  
35 alternative restrictions that are sufficient to reduce the risk of exposure to  
36 contaminated soils to an acceptable level while allowing the real property to  
37 continue to be used for a residence.
- 38           (3) Where groundwater contamination will remain in excess of unrestricted use  
39 standards, installation or operation of any well usable as a source of water  
40 shall be prohibited.
- 41           (4) Any restriction on the current or future use of the real property that is agreed  
42 upon by both the owner of the real property and the Department.

43           Except with respect to land contaminated from a discharge or release of petroleum from an  
44 underground storage tank, the imposition of restrictions on the current or future use of real  
45 property on sites contaminated by the discharge or release of petroleum from an aboveground  
46 storage tank, or another petroleum source, from which contamination has migrated to off-site  
47 properties, as that term is defined under G.S. 130A-310.65(3a), shall only be allowed as  
48 provided in G.S. 143-215.104AA or G.S. 130A-310.73A, as applicable."

49           SECTION 3.(b) G.S. 143B-279.11 reads as rewritten:

50   "**§ 143B-279.11. Recordation of residual petroleum from an—underground or**  
51   **aboveground storage tank-tanks or other sources.**"

1 (a) The definitions set out in G.S. 143-215.94A and G.S. 143B-279.9 apply to this  
2 section. This section applies only to a cleanup pursuant to a remedial action plan that addresses  
3 environmental damage resulting from a discharge or release of petroleum from an underground  
4 storage tank pursuant to Part 2A of Article 21A of Chapter 143 of the General ~~Statutes~~Statutes  
5 or from an aboveground storage tank or other petroleum source pursuant to Part 7 of Article  
6 21A of Chapter 143 of the General Statutes.

7 (b) The owner, operator, or other person responsible for a discharge or release of  
8 petroleum from an underground storage ~~tank~~tank, aboveground storage tank, or other  
9 petroleum source shall prepare and submit to the Department a proposed Notice that meets the  
10 requirements of this section. The proposed Notice shall be submitted to the Department (i)  
11 before the property is conveyed, or (ii) when the owner, operator, or other person responsible  
12 for the discharge or release requests that the Department issue a determination that no further  
13 action is required under the remedial action plan, whichever first occurs. The Notice shall be  
14 entitled "NOTICE OF RESIDUAL PETROLEUM". The Notice shall include a description that  
15 would be sufficient as a description in an instrument of conveyance of the (i) real property on  
16 which the source of contamination is located and (ii) any real property on which contamination  
17 is located at the time the remedial action plan is approved and that was owned or controlled by  
18 any owner or operator of the underground storage ~~tank~~tank, aboveground storage tank, or other  
19 petroleum source, or other responsible party at the time the discharge or release of petroleum is  
20 discovered or reported or at any time thereafter. The Notice shall identify the location of any  
21 residual petroleum known to exist on the real property at the time the Notice is prepared. The  
22 Notice shall also identify the location of any residual petroleum known, at the time the Notice  
23 is prepared, to exist on other real property that is a result of the discharge or release. The Notice  
24 shall set out any restrictions on the current or future use of the real property that are imposed by  
25 the Secretary pursuant to G.S. 143B-279.9(b) to protect public health, the environment, or users  
26 of the property.

27 (c) If the contamination is located on more than one parcel or tract of land, the  
28 Department may require that the owner, operator, or other person responsible for the discharge  
29 or release prepare a composite map or plat that shows all parcels or tracts. If the contamination  
30 is located on one parcel or tract of land, the owner, operator, or other person responsible for the  
31 discharge or release may prepare a map or plat that shows the parcel but is not required to do  
32 so. A map or plat shall be prepared and certified by a professional land surveyor, shall meet the  
33 requirements of G.S. 47-30, and shall be submitted to the Department for approval. When the  
34 Department has approved a map or plat, it shall be recorded in the office of the register of  
35 deeds and shall be incorporated into the Notice by reference.

36 (d) The Department shall review the proposed Notice to determine whether the Notice  
37 meets the requirements of this section and rules adopted to implement this section and shall  
38 provide the owner, operator, or other person responsible for the discharge or release of  
39 petroleum from an underground storage ~~tank~~tank, aboveground storage tank, or other  
40 petroleum source, with a notarized copy of the approved Notice. After the Department  
41 approves the Notice, the owner, operator, or other person responsible for the discharge or  
42 release of petroleum from an underground storage ~~tank~~tank, aboveground storage tank, or  
43 other petroleum source shall file a notarized copy of the approved Notice in the register of  
44 deeds office in the county or counties in which the real property is located (i) before the  
45 property is conveyed or (ii) within 30 days after the owner, operator, or other person  
46 responsible for the discharge or release receives notice from the Department that no further  
47 action is required under the remedial action plan, whichever first occurs. If the owner, operator,  
48 or other person responsible for the discharge or release fails to file the Notice as required by  
49 this section, any determination by the Department that no further action is required is void. The  
50 owner, operator, or other person responsible for the discharge or release, may record the Notice  
51 required by this section without the agreement of the owner of the real property. The owner,

1 operator, or other person responsible for the discharge or release shall submit a certified copy  
2 of the Notice as filed in the register of deeds office to the Department.

3 (e) Repealed by Session Laws 2012-18, s. 1.23, effective July 1, 2012.

4 (f) In the event that the owner, operator, or other person responsible for the discharge  
5 or release fails to submit and file the Notice required by this section within the time specified,  
6 the Secretary may prepare and file the Notice. The costs thereof may be recovered by the  
7 Secretary from any responsible party. In the event that an owner of the real property who is not  
8 a responsible party submits and files the Notice required by this section, the owner may recover  
9 the reasonable costs thereof from any responsible party.

10 (g) A Notice filed pursuant to this section shall, at the request of the owner of the real  
11 property, be cancelled by the Secretary after the residual petroleum has been eliminated or  
12 remediated to unrestricted use standards. If requested in writing by the owner of the land, the  
13 Secretary shall send to the register of deeds of each county where the Notice is recorded a  
14 statement that the residual petroleum has been eliminated, or that the residual petroleum has  
15 been remediated to unrestricted use standards, and request that the Notice be cancelled of  
16 record. The Secretary's statement shall contain the names of the owners of the land as shown in  
17 the Notice and reference the plat book and page where the Notice is recorded.

18 (h) Except with respect to land contaminated from a discharge or release of petroleum  
19 from an underground storage tank, the provisions of this section shall only apply to sites  
20 contaminated by the discharge or release of petroleum from an aboveground storage tank, or  
21 another petroleum source, from which contamination has migrated to off-site properties, as that  
22 term is defined under G.S. 130A-310.65(3a), in compliance with the requirements of  
23 G.S. 143-215.104AA or G.S. 130A-310.73A, as applicable."
