FISCAL IMPACT SUMMARY

Build NC Bond Act authorizes the State Treasurer to issue Build NC Bonds, a type of special indebtedness in which the proceeds shall be used only for Division Need Projects and Regional Impact Projects in accordance with the Strategic Transportation Investments ("STI") law set forth in Article 14B of Chapter 136 of the General Statutes.

BILL ANALYSIS: Build NC Bond Act does the following:

Section 1: Provides that the act shall be known as the "Build NC Bond Act of 2018."

Section 2: Amends the State Capital Facilities Finance Act to do the following:

- Authorizes the issuance of Build NC Bonds, which is defined as special indebtedness issued to finance Build NC Projects.
- Defines the term "Build NC Project" as a capital facility identified and selected for financing with Build NC Bonds by the process set forth in the STI law.
- Provides that (i) approximately 50% of the proceeds from an issuance of Build NC Bonds may be used for Division Need Projects in accordance with the requirements of the STI law and (ii) the remainder of the proceeds may be used for Regional Impact Projects in accordance with the requirements of the STI law. No proceeds may be used for Statewide Strategic Mobility Projects.

Section 3: Further amends the State Capital Facilities Finance Act to include the following requirements and limitations in regards to the issuance and sale of Build NC Bonds:

- The source of repayment for Build NC Bonds is the Highway Trust Fund.
- The State Treasurer shall not issue any Build NC Bonds unless (i) the State Treasurer recommends the issuance and (ii) the State Treasurer has made a determination that all of the following requirements have been or shall be met:
 - The Department of Transportation's (DOT) average combined month-end cash balance for the first 3 months in the calendar year is equal to or less than 20% of the total expenditures from the Highway Fund and Highway Trust Fund.
 - The total amount of Build NC Bonds outstanding will not cause the recommended transportation debt target established by the Debt Affordability Advisory Committee to be exceeded.
 - At least 6 months prior to the expected date of a Build NC Bond issuance, the Department of Transportation has consulted with the State Treasurer, the Joint Legislative Transportation Oversight Committee, and the Joint Legislative Commission on Governmental Operations.
- The total amount of special indebtedness resulting from the sale of Build NC Bonds shall not exceed \$3,000,000,000 and each individual issuance shall not exceed \$300,000,000.
- DOT may not use the Build NC Proceeds for non-highway projects or tolling projects.
- Passage of this act would satisfy the requirement of G.S. 142-15.17 that the General Assembly expressly authorize this type of financing arrangement through legislation.
- The aforementioned restrictions do not apply to a Build NC Bond used as a refunding bond under G.S. 142-29.5, which means the proceeds from a new debt issue may be used to retire an outstanding bond issue.
- Since the special indebtedness is supported by the Highway Trust Fund, the limitation set forth in G.S. 142-83(b) regarding bond indebtedness supported by the General Fund does not apply.
- Since the projects to be financed with Build NC Bonds are selected through the STI process, the requirement set forth in G.S. 142-84(e) that the Department of Administration make decisions about the type of facility and amount financed does not apply.

Section 4: Provides that the maturity date for a Build NC Bond may not exceed 15 years.

Section 5: Directs the State Treasurer, in consultation with DOT, to develop a debt management plan for Build NC Bonds.

Section 6: This bill is effective when it becomes law.

FISCAL ANALYSIS

Estimated Debt Service

It is not known when the first issuance will be made, if the maximum of \$300 million will be issued each year, or if DOT's cash balance and debt capacity limits will allow for an issuance each year. Figure 1 assumes the \$300 million maximum per issuance will occur for 10 consecutive years with the first debt issuance in May 2019. This analysis assumes a 15-year maturity date and a 6% interest rate.

Other Fiscal Impacts

The Department of State Treasurer responded that this bill creates additional work that can be absorbed into current operations. DOT costs, such as for bond counsel, are charged

proportionately to bonded projects and are funded through bond proceeds. These costs are included in Figure 1.
